WW2 German town plans of England and Wales from Operation Sea Lion

In preparing for the invasion of Great Britain (Operation Sea Lion), a vast amount of information, including maps and photographs, was assembled by the German military.

This included enlarging Ordnance Survey six-inch maps of important towns to 1:10,000, and overprinting the new brown base map with coloured symbols showing sites of military significance such as airports, railway workshops, docks, bridges. Sheet size is usually 18.5" by 12.5 inches, with larger combined sheets showing some towns on a single sheet. Folded to roughly A4 size.

Our stock is illustrated on our website, where we are offering a 40% discount to members for a limited period. Carriage paid.
