The Charles Close Society was founded in 1980 to bring together all those with an interest in the maps and history of the Ordnance Survey of Great Britain and its counterparts in the island of Ireland. The Society takes its name from Colonel Sir Charles Arden-Close, OS Director General from 1911 to 1922, and initiator of many of the maps now sought after by collectors.

The Society publishes a wide range of books and booklets on historic OS map series and its journal, *Sheetlines*, is recognised internationally for its specialist articles on Ordnance Survey-related topics.

Whilst the identities of all certain or probable bypassed plans were traced from the survey diagrams of six inch to the mile maps,¹ it was not possible to do this in the case of SS1700. Six-inch map SS10SE was not published whilst SS1800 and SS1900-04 were incorporated in a westward extension of SS20SW. SX19NE was not published in extended form until the three plans to the north (SS1700, 1800 and 1900) were revised. SS1700, which comprises only a small portion of coast, eventually turned up in a local library.
